Bio for Mike Langer K5MGR

Mike is a retired broadcast station owner and lifetime career broadcast engineer. He holds an Amateur Extra, Commercial Radiotelegraph, and Commercial Radiotelephone licenses. Currently he is the New Mexico inspector for the New Mexico Broadcasters Associations' Alternative Broadcast Inspection Program, a program jointly sponsored by the FCC and the National Association of State Broadcast Associations in which when stations pass and compliance inspection by inspectors like him, stations are given a three-year exemption from random, luck-of-the-draw FCC walk-in inspections. This program helps keep our broadcast industry as voluntarily compliant as possible. He is the Chair of the New Mexico Emergency Broadcast System. He has been an active ham since 1957!
