Introduction from the President

Greetings,

Last week was busy for HDARC and this week is no different. Thank you to those members who have been responding to the clubs request of QSO on the club repeater at 1930 hours in the evening. I can report that last week I had several QSO's around 1930 hours. 73 to NS7X, KI5NBN, NM5MC, N6SIK, WA5YUL, K5JVG for the QSO's. I hope to hear more of the membership on the repeater this week.

On Friday evening April 11, 2025 members of the HDARC set up shop at the National Museum for Nuclear Science and History for Adult STEAM night. A big 73 to WA5YUL for staying in contact with the museum. Mike NM5MC for meeting with the museum to confirm arrangements and operate at the event. And to Jean KG5ZRU, John K5JVG, and Rob KI5NBN for showing up and operating.

On Saturday April 12, 2025 we held session 2 of MaryAnn's NS7X CW workshop, we operated the State Wide Chat Shack Net, and K5TFL held her SOTA Workshop. More details within.

We will be needing a volunteer to assume the duties of getting coffee and donuts for our monthly membership meetings on the 3rd Saturday of every month. Cynthia Beiser, KJ5FMW has been in charge of these duties for over a year. She has done a wonderful job. Thank you Cynthia. The new volunteer would assume the duties for the June 2025 meeting. If you are interested please contact me.

I will be sending out a short survey to members in good standing sometime during April 2025 to provide feedback on current and future programming.

Here are some more important updates for this week:

The club calendar is now published through June 2025.

The HDARC East Mountain group is having their monthly luncheon with a presentation on Thursday April 17, 2025 at 11:30 A local in Edgewood NM . More info within.

Session two (3) of the CW workshop six (6)session series will be this coming Saturday April 19, 2025. The location will be the North Domingo Baca Multigenerational Center classroom 4 . Details within.

This Saturday April 19, 2025 is our Monthly Membership Meeting at the North Domingo Baca Multigenerational Center in Albuquerque at 10:00 A.M. local in classroom 4. . ARRL NM Section Mgr. and HDARC Member K8TE Bill is our presenter. The topic is “Why aren’t you contesting?”. V.E. Testing will follow. More details within.

We have an antenna build workshop and Foxhunt coming during the May 2025 membership meeting. More details to be announced at Saturday’s meeting.

The NM RoadRunner Traffic Net needs a manager. More details inside.

Don’t forget about our Wednesday Noon Zoom Chat Room . This link is active through the end of 2025.

THE SOUNDER SECTION

“To join together by pressure, fuse together for strength”

Club Repeaters and Simplex Frequencies

The Club has Two Repeaters, 442.750+ PL 162.2 on Sandia Crest and 145.370 - PL 162.2 in Edgewood. The Club uses two Simplex frequencies, 146.460 and 446.025

Join the FUN, join the Club

Are you aware that the HDARC is one of the most active Amateur Radio Clubs in New Mexico? Well, it is! Read on and find out! Tell a friend! www.nm5hd.org

To become a club member go to www.nm5hd.org and click on the "become a member" tab to join the ever growing group of the coolest Hams in New Mexico, you'll be glad you did!

Join the ARRL

The American Radio Relay League, the ARRL, a non-profit organization, is the largest membership association of amateur radio enthusiasts in the United States. The ARRL represents the interests of amateur radio operators before federal regulatory bodies, the ARRL provides technical advice and assistance to amateur radio enthusiasts, it also supports a number of educational programs and sponsors emergency communications service throughout the

country. The HDARC is an ARRL Affiliated Club and a ARRL Special Service Club. We encourage you to join. Click on this link:

THE COUNTERPOISE SECTION

“To have an opposing and balancing effect ”

From The Elmer, NS7X

The Infamous Carrington Event. Again???

Sometimes you experience a lucky happenstance. Some days you rely on dumb luck. And then there are the days you find yourself staring down the gun barrel of fate, and there's nothing you can do about it. On August 28, 1859, our planet found itself to be the target of an active, and angry, sun. We earthlings were the recipient of a massive Coronal Mass Ejection. It was called the Carrington Event, which was named for the British astronomer, Richard Carrington, who first identified the incoming solar assault on our planet. They are still studying the effects of the Carrington Event. What we know is the sun had a huge solar flare. So large in fact, that it emitted a massive solar flare (I like to think of it as an enormous electro-magnetic spit wad) which happened to hit our planet. Apparently, the effects were world-wide when it hit us. The entire planet lit up, even those parts that were well into the night hours. There were reports of folks reading the newspaper in "broad daylight", even though the clocks read 2:00 AM. Men appeared at their work-place hours before their scheduled work time because they thought it was past dawn. The high-tech, modern telegraph operators reported many sparks, fires, and injuries on telegraph

lines in spite of the fact that their telegraph lines had no power. Just so you know, the CME which caused the Carrington Event occurred during a relatively average Solar Cycle. We are at the high point of Solar Cycle 25, a much more active cycle. Our sun is sending out spit wads on almost a daily basis. The question is whether or not a massive CME will occur and will it hit our planet? We should have, depending on the circumstances, maybe about 12 hours to prep for such an event. After all, we really don't know how a Carrington 2.0 event will affect our banking systems, our hospital diagnostic equipment, our cell phones, anything electronic, etc. What we do know is that some day, we'll be staring down the barrel of another Carrington Event CME. When it will happen, and what consequences it will have on us, we don't know. Another massive CME may have virtually the same outcome as an EMP, but the results of a CME will likely be a slow burn as opposed to that of an EMP which will be immediate. On the other hand, we can just rely on dumb luck. Just sayin'.

When all else fails... Just sayin'.

73 de MaryAnn, NS7X ns7x@arri.net

Elmer MaryAnn has prepared several tutoring kits for new hams. These kits will be available at this coming Saturday's meeting. Thank you MaryAnn. If you know of someone wanting to become a ham or if you wish to upgrade, MaryAnn NS7X can be contacted through ns7x@arri.net

ELMERS are defined as an experienced operator who takes someone under his or her wing, providing personal guidance and answers to the thousands of questions that confront a newbie. In our case it would include those wanting to upgrade.

From the V.E. Yul WA5YUL

I found this message from the ARRL that impacts us all as HAMS. I hope you find this informative. 73 Yul WA5YUL

“Dear ARRL Member,

ARRL The National Association for Amateur Radio® filed comments [PDF] with the Federal Communications Commission in response to its request for public input on alleviating unnecessary regulatory burdens by deleting or modifying rules, In the Matter of Delete, Delete, Delete. Implementing ARRL’s suggestions would promote and protect the art, science, and enjoyment of amateur radio, and enhance the development of the next generation of radio

Amateurs. In response to ARRL’s request, over 200 members submitted suggestions that were reviewed when considering what rules should be deleted or modified. ARRL will continue to engage with members and advocate for the Amateur Radio Service. In its filing, ARRL asked the FCC to delete or amend the following rules:

Delete the LF and VHF/UHF Symbol (Baud) Rate and Bandwidth Limitations

ARRL supports the deletion of these restrictions as proposed by the Commission in late 2023. Doing so would enhance Amateur experimentation with digital technologies.

Update and Modernize Entry Level Technician Class License Privileges

ARRL reiterated its earlier proposal for extending additional limited privileges for Technician class operators. Adopting its proposal would provide new licensees an introductory window to HF data and phone communications that are at the core of the Amateur Radio experience and serve to incentivize the next generation of technical leaders just as Novice CW HF privileges did for earlier generations of operators.

Modernize 80/75 Meter Subband Divisions

ARRL requested action on an earlier proposal that would make more efficient and intense use of the 80/75 meter band. Changes in technology and modes since band usage was last addressed have resulted in overcrowding in one band segment that would be alleviated by adoption of ARRL’s proposal.

Delete and Replace Obsolete Digital Code Limitations

ARRL also asked the FCC remove provisions that refer to digital codes that today are obsolete and permit Radio Amateurs to experiment freely with new digital codes, so long as such codes are publicly documented and decodable over the air.

Implement Changes to Third Party Rules Adopted Internationally at WRC-03

Although the United States fully supported changes to the ITU Radio Regulations in 2003 that removed a treaty requirement for third-party messages, there is no record of this change having been considered and the FCC's rules were never conformed to the new provision. Being the only nation known to continue to require a formal treaty for such purposes has resulted in no new such treaties since the treaty changed more than two decades ago. Thus ARRL asked the FCC to Implement rules that are consistent with those internationally agreed to align with the rest of the world.

Delete Amplifier Drive Limitation

ARRL requested that the Commission act favorably on a pending proposal to remove limits to HF amplifier gain that add to Amateur equipment cost and impede use of new efficient amplifier technology.

Remove Non-current Personal Information in Amateur ULS records

ARRL requested that the FCC complete a rule making in which it proposed that only current licensee information to be visible in the public (ULS) database. Right now, if an amateur changes their address to a Post Office Box to shield their home address, the previous address remains visible. ARRL advocates for protecting the privacy of radio amateurs.

Delete Obsolete Identification Requirement for Special Call Signs

Users of special event call signs are required to identify with the FCC-issued responsible call sign at least once each hour. This can be confusing, especially on data and CW modes. ARRL proposed reliance on the web-based database that clearly identifies each special event call sign and authorized period of use.

Delete Obsolete Paper License Replacement Provision

The FCC no longer mails physical copies of amateur radio licenses, so ARRL suggested deleting the rule that provides for sending paper replacements as obsolete.

The FCC notice [PDF] generated a lot of interest among radio amateurs, with hundreds of Amateurs submitting comments directly to the FCC as well as responding to ARRL's request for suggestions. The FCC deadline for filing reply comments is April 28, 2025. It is hoped that the Commission will incorporate worthy suggestions in a future Notice of Proposed Rulemaking (NPRM) later this year. At that time there will be a new opportunity for public comment on the specific rules that the Commission proposes to delete or modify."

THE CHAT SHACK SHEET SECTION

"Reaching out to each other through the art of verbal dialogue"

Saturday CHAT SHACK NET/MegaLink

Saturday 10 A.M. STATEWIDE CHAT SHACK NET will use the 444.325 + PL 100 and the 145.290 - PL100 on Sandia Crest in order to access the MegaLink system.

NM5HD Net Controllers :

1st Saturday, John Gleason, K5JVG

2nd Saturday, Mike Smith KI5NBP

3rd Saturday, Club Meeting. No net

4th Saturday, Mike Chirin, NM5MC

5th Saturday, Open for a volunteer.

The next net is Saturday April 12, 2025 Your net controller is Mike KI5NBP. You can reach this Net from any part of NM because of its design. You just need to be on the right frequency, offset, and PL tone for the local repeater closest to your location at the day and time of the net. For current mega link frequency information go to www.nm5ml.com. If you're having issues programming your radio email hdarcpres@gmail.com. You will be directed to someone in the club that can help you. Please [click here](#) to see the operational status of NM5ML Mega Link Repeaters.

V.P. John K5JVG is the Committee Lead for HDARC Net's.

HDARC Repeater Use Experiment

John KJ5DSU had a question about why the HDARC repeater seems to transmit nothing but crickets anytime he happens to listen in and wants to strike up a conversation? Many of us have asked the same question. What was nice is that he also recommended a solution that is simple, costs no more money than we have already invested in our equipment, and is well within the capabilities of any one holding any of the three classes of licenses. Let's say if every member tried to monitor and exchange at least 1 night a month the repeater might not collect cobwebs.

Here is the proposal , on any night at 7:30 PM Local time tune *into 442.750+ PL 162.2 on Sandia Crest, the HDARC repeater and call in with your call sign and see if you can strike up a conversation.* This is not a NET. Just an attempt to get us to spend a few minutes to monitor the frequency and have a conversation with someone over our repeater. This will go on every night moving forward. Thanks John, great idea. Let's see what happens. So let's get those \$15.00 Baofengs fired up. I hope to talk to you tonight.

Manager needed for the NM Roadrunner Net

The NM Section of the ARRL is in need of a volunteer to manage the New Mexico Roadrunner Net. This is our only ARRL-sanctioned, National Traffic System network in NM. The manager doesn't have to check into the net (0100z every day) but makes sure to collect and report on the activity. He/she gets daily reports on check ins & announcements, formal and

informal messages, etc. from the net control stations. The schedule is covered and little else needs to be done. To inquire contact n2gj@arrl.net

THE REPEATER SECTION

“Receive and retransmit a communication signal”

CW Workshop Sessions April 5- May 10, 2025

Club Director and Elmer NS7X MaryAnn has agreed to conduct another series of weekly CW classroom sessions. *Session 3 of this 6 part series is April 19, 2025 from 9:00 AM to 10:00 AM in classroom 4.*

That is six(6) sessions. You are required to attend all 6 sessions. The location of all six sessions is the North Domingo Baca Multi-Cultural Center 7521 Carmel NE Albuquerque, NM 87113 in the community room. The classroom sessions will be followed up with a multi week club CW contest starting in late May early June 2025.

Class 3	4/19/2025	9:00 AM-10:00 AM
Class 4	4/26/2025	9:00 AM-10:30 AM
Class 5	5/3/2025	9:00 AM-10:30 AM
Class 6	5/10/2025	9:00 AM-10:30 AM

SOTA (Summits on the Air) Workshop April 12, 2025-Report

HDARC member Carol Sugar K5TFL held a SOTA workshop last Saturday April 12, 2025. THE LOCATION was The City of Albuquerque LOS DURANES COMMUNITY CENTER 2920 Leopoldo NW, Albuquerque NM 87104 from 10:30 A.M. to 2:00 P.M.

It was a great success. The facilities were perfect. The following classigns attended:

KI5NBP AF5TT KJ5ICW KG5ZRU N6SIK N6TYT

KE5DKJ KJ5DSU KG5CYA.

Those that participated were invited by Carol K5TFL and Rick KG5CYA to participate in 1 of 2 SOTA activations in Albuquerque and Los Lunas NM on Sunday May 18, 2025. More details to follow.

A big 73 to Carol.

The aim of SOTA is to encourage licensed amateur radio operators to operate temporarily from mountainous locations using any method of travel including

hiking, mountain climbing, and cycling while operating their amateur radio station from the summits of hills and mountains. In addition to getting operators out into the field the program encourages others to listen into the transmissions from these stations and send in reports.

National Solar Observatory

Sunspot NM

Hamming Around New Mexico

June 7, 2025

Here is another exciting “Hamming around New Mexico” opportunity. HDARC will be visiting “The National Solar Observatory” in Sunspot NM on Saturday June 7, 2025. We are scheduled for a private 2 hr behind the scenes tour and private presentation by Dr Sean Sellers, Astronomer at Sunspot. Sunspot NM is located in the Sacramento Mountains south of Cloudcroft NM in the Lincoln National Forest. Sunspot NM is 257 miles from Albuquerque. Google maps shows it would take 4 hours and 15 minutes by the fastest route. The schedule is being worked on. The intent is to have the tour and presentation in the Mid Afternoon. This would provide us a chance to operate on site in the morning for those arriving the night before. Accommodations

are available in Ruidoso, Mescalero, and Alamogordo. Remember this is the summer time and these are big tourist towns. A big 73 to Marc KD6KR coordinating this event. [If you would like to attend please save a spot early and email me at \[hdarcpres@gmail.com\]\(mailto:hdarcpres@gmail.com\)](#). The link to the Observatory is: <https://nso.edu>

The following callsigns have registered to participate in this adventure:

KD6KR	KI5NBP	AG5UY	N6SIK	N6TYT	KI5NBN
NM5MC	K5JVB	WA5YUL	N1NVK	KI5YIF	KJ5ICW
KJ5KMJ					

If your callsign does not appear above and you registered please email hdarcpres@gmail.com

HDARC EAST MOUNTAIN GROUP

The HDARC East Mountain Group will be holding their monthly luncheon/meeting on April 17, 2025 at Lil Mama's Restaurant located at 150 NM-344 A, in Edgewood, NM 87015. Start time is 11:30 AM. All are invited to attend. Contact Club Quartermaster/East Mountain resident Rob KI5NBN if you have any questions.

<https://menushenu.com/lil-mamas-restaurant-edgewood-menu/>

Tom N5ATR, will do a presentation on EMCOM (Emergency Communications) as well as the results of the Practice EMCOM Exercise done on April 5th.

THE CONNECTIONS SECTION

“a relationship in which a person, thing, or idea is linked or associated with something else.”

Test Equipment Loaner Program for Members

HDARC Director Harvey Dove KI5YVY is the lead for this program. A copy of the program outline and how to contact Harvey to request a loaner is posted on the home page of NM5hd.org. Click on this link: https://www.nm5hd.org/files/ugd/d9cb96_5fe894d5a99c434191712575def6987b.pdf

The current inventory of loaner test equipment includes:

- MFJ -263 Dummy Loads
- MFJ - 802B Field Strength Meter
- RigExpert AA-650ZOOM Antenna Analyzer

We CURRENTLY have five donated pieces of test equipment. Please consider if you have a piece of gently used and functional test equipment you can donate for this program. The next purchase of test equipment for the program will include RF noise detectors (MFJ 805). An MFJ 259 Antenna Analyzer was donated by Roger K5RPE. 73 Roger

We are looking for volunteers to help us make in house instructional videos to demonstrate how to use each piece of test equipment. Your role would be to be the on air talent. Other

members would assist in creating the storyboards, help writing the script, recording, editing, and posting. If you have the hands on knowledge, help us share that with other club members.

RT Systems Programming Software Available for Use

The club has in its possession the following RT Systems programming software available for use:

- Icom-2730
- Alinco-635
- Yaesu FT-60
- Yaesu FT-2900
- Yaesu FTM-6000

Please contact Past President David Ham N6SIK if you wish to use them at n6sik@arrl.net

HDARC Member Name Badges/Hats/Shirts-New

I have been asked by members how to purchase a HDARC Membership Badge. [Click Here](#) to be directed to our vendor's web store. **The site is fully operational again.**

HDARC Shirts,hats,and other Club gear can be ordered from Rio Rancho T-Shirts, 1207 Golf Course Rd SE Ste F, Rio Rancho, NM 87124. Speak with Wayne or Penny at: (505)

891-1521.

V.E. Testing
(Scheduling Change)

The HDARC is a sponsor of the Institute of HAM Radio Sciences, which conducts free V.E. testing sessions on behalf of the HDARC at 11:30 on the 3rd Saturday of April, June, August, October, and December immediately following the Monthly HDARC In-Person Club Meeting in classroom #4 at the North Domingo Baca Multigenerational Center. Look for the link [FREE TESTING](#) on the club web page. Please, pre register on the club web page for testing www.nm5hd.org. For more information contact Yul Bratcher at his email, yul.bratcher@att.net A big 73 to YUL and the V.E. team for volunteering their time and resources. Without them this could not happen. **The next testing session is April 19, 2025.**

The testing schedule after the April 2025 session will be:

Saturday June 21, 2025

Saturday August 16, 2025

Saturday October 18, 2025

Saturday December 20, 2025

Classifieds

Welcome to the classified section. The intent is to give members and other HAMS a place to advertise any HAM related equipment they have for sale. It is also a place for members to list what HAM related equipment they are seeking to buy. *This is a free service with no fees attached.* *This week we are featuring items from the Club SK inventory. Contact our Quartermaster Rob KI5NBN at this email if you are interested: dynomutt@reagan.com Feel free to haggle with Rob. We will update this inventory weekly.*

Available for Purchase from the club Inventory

More inventory to be listed soon

radio. Dual band- missing
external charger.
Suggested Donation
\$250.00

Radio Club of New Mexico Inc.

CONCLUSION

Check the club's website often, there are interesting things being added weekly. www.nm5hd.org

I want to thank the club's COB, Kenneth Ham, AG5UY, for maintaining the website. Thanks Yul, WA5YUL and V.E. team for what they do to provide free testing to the public. Thank you to our Elmer MaryAnn NS7X for contributing to the Dispatch. Thank you Rob KI5NBN for providing a list of gear to offer to the club members. Thanks to those of you who provided content for this periodical. Feel free to reach out to me anytime at hdarcpres@gmail.com. If you wish to add content to "The High Desert Dispatch " weekly periodical the deadline for submission is Monday preceding the Wednesday publication date. If you get the chance, monitor the HDARC repeater every night at 7:30 P.M. local time to find someone to exchange with. *See you at this Saturdays Membership Meeting.*
